

	Acronyme	Principal WP	Titre	Porteur
<b>INCITATIF Recherche</b>	AC-DCC	WP1	Attribute a role to the Conserved and unassigned DCC proteins	DE BONT Linda
	DroughtMIC	WP1	Drought impact on the diversity, fction and functioning of the forest microbial communities	UROZ Stéphane
	FOREVERS	WP2	FOREsts Vulnerability to climate Evolution using Range Shifts of species	PIEDALLU Christian
	MESSYA	WP4	Mapping Ecosystem Service Supply in Conservation Areas	BOCQUEHO Géraldine
	PostDroughtNUT	WP2	Effect of repeated early drought events on nutrient uptake of beech trees during the post drought period	ZELLER Bernhard
<b>INNOVANT Recherche</b>	Look4Grail	WP1	Looking for Glutathione Transferase substrates and ligands	HECKER Arnaud
	LUCAS	WP4	Accounting for land use dynamics in the calculation of carbon substitution by wood products.	CAURLA Sylvain
	MAESTRO	WP4	Dynamic sampling and inference for smart forest monitoring	BOURIAUD Olivier
	Me2	WP1	Microbiota experimental evolution under plant selection	BONTEMPS Cyril
	ModAdapt	WP2	What models to provide guidance for the adaptation of forests to climate change?	LEGAY Myriam
	NSICC	WP2	Assessment of New Species to cope with the possible Impacts of Climate Change	LE THIEC Didier
	POLOMICS	WP1	The Ecological Genomics of Wood Decomposition in Polyporales	MARTIN Francis
	POPmodels	WP1	Understanding Poplar-Microbe Interfaces: From model systems to model synthetic communities	KOHLER Annegret
	SubForDyn	WP2	Reconstructing, Understanding and Modelling Treeline Dynamics to Support Carbon Sequestration, Biodiversity Conservation, and Infrastructure Protection	RATHGEBER Cyrille
<b>INNOVANT Valorisation</b>	CARTOPIQTIQ	Transversal	Cartographier le risque infectieux lié à l'exposition aux piqûres de tiques en France pour améliorer la prévention: apport des données de la recherche participative	FREY-KLETT Pascale
